

DJ Rellik

Biography

DJ Rellik (real name Tim Trappett) is a Melbourne-based DJ, producer, and founder of Turnstyle Records. With over two decades of experience, he has become a cornerstone of Australia's underground hip hop and electronic music scenes. Known for his razor-sharp turntablism and deep production catalog, Rellik has contributed to over 250 releases and supported more than 50 international and local acts.

He holds the title of **2014-15 DMC State Champion for Victoria**, and was runner-up in 2015 — a testament to his technical mastery and performance energy. His work spans hip hop, experimental beats, and electronic fusion, often collaborating with artists like Epic, Poets One, Outpost31, and Bias B.

Rellik runs multiple podcast programs from his studio and continues to produce solo and collaborative albums featuring both local and international talent. His live sets blend classic hip hop ethos with modern production, making him a sought-after performer across clubs, festivals, and international showcases.
